

### Exit Phase (Before Drogue Fall)

#### ***Bag out immediately on exit***

Deploy drogue, release drogue immediately and expect malfunction – (If cannot deploy drogue) disconnect RSL, cut-away and deploy reserve

#### ***Unstable on exit***

Try to physically rectify student's position to gain stability, if unsuccessful deploy drogue preferably in a face to earth position

#### ***Side spin***

If left side down, deploy drogue, if right side down initiate reserve deployment. It may still be advantageous to deploy drogue even if right side down

#### ***Drogue release handle pulled prior to deployment of drogue***

Immediately deploy drogue

#### ***Unable to locate drogue***

Check drogue has not prematurely deployed, if not immediately initiate reserve deployment

#### ***Unable to deploy drogue***

Immediately initiate reserve deployment

### Drogue Fall

#### ***Drogue does not inflate***

Pull drogue release handle after 6-8 seconds

#### ***Drogue detaches / breaks***

First check for bag out, if not then immediately initiate reserve deployment

#### ***Cannot locate (Or Pull) drogue release handle***

Pull secondary drogue release handle

#### ***Cannot locate (Or Pull) secondary drogue release handle***

Immediately initiate reserve deployment

#### ***Drogue bridle becomes entangled***

Have one attempt to clear, if unsuccessful initiate reserve deployment

#### ***Main container opens during drogue fall***

Pull drogue release, be prepared for a malfunction

#### ***Left arm incapacitated by injury or by student***

Pull secondary drogue release handle, if cannot locate secondary drogue release handle, with right hand immediately initiate reserve deployment using RSL.

#### ***Right arm incapacitated by injury or by student***

Pull primary drogue release handle, if cannot locate primary drogue release handle immediately initiate reserve deployment

#### ***Unable to locate either drogue release handles***

Initiate reserve deployment immediately

### Primary Drogue Release Handle Pulled

#### ***Main Malfunctions***

Cut-away and initiate reserve deployment

#### ***Inflated drogue does not release***

Pull secondary drogue release handle

#### ***Inflated drogue in tow***

Immediately initiate reserve deployment

#### ***Drogue deflates but does not release***

Pull secondary drogue release handle.

#### ***Deflated drogue in tow***

Immediately initiate reserve deployment.

#### ***Drogue detaches / bridle breaks on drogue release pull***

If main does not deploy initiate reserve deployment. If main canopy starts to deploy after reserve deployment, cut away main canopy.
