HOD/BPA Office/Team Leaders - agreed single communication points.

It must be emphasised that the BPA and BPA office act only as collative/administrative role. They will not be responsible for ensuring information is gathered, this role is one of the Teams via the Team Leader who must be responsible for timely and accurate collation of relevant information, requested or otherwise, for successful registration of team and its team members. The BPA will only forward relevant entry fees etc. after receipt from the relevant team/s. Teams not providing relevant information /fees will not be responsibility of the BPA.

Due to the limited man power and problem of collating large number of information from multiple sources, it is at all times the teams responsibility, via an agreed Team Leader to supply such information to the BPA. Multiple /overlap of requests communication problems can only be avoided by single and agreed communication systems, such systems must be adhered to.

Conclusion

These notes are provided purely as an aide memoir, and cannot be exhaustive. However, the HOD and/or Team Manager role is only one of assistance and support. Members of the delegation - including accompanying persons – have a responsibility themselves to act in a responsible and professional manner, and personally to provide their own necessary paperwork, financial and logistical arrangements in accordance with instructions and advice given ahead of the competition.
