- e) RE-JUMPS Prices as above. All re-jumps are to be paid for.

Note: 1. Teams entering without their own nominated videographer will be charged an extra £10 per team per round (see tariff above). Teams entering with their own videographer will be entitled to a medal for that videographer if the team wins a medal. Teams entering with their own videographer must note the videographer is part of the team, and can only be replaced by a nominated alternate should they need to be changed.

Note: 2. The above tariff includes a British Skydiving levy towards the British Team Fund of £5 per entry fee and £1 per person per jump.

Note: 3. Entry fee is for one event.

7. **DOCUMENTATION**

All competitors will be required to produce the following documentation when booking in:

- a) British Championship Senior Category Teams - **Full** valid British Skydiving

Patron: His Royal Highness The Prince of Wales

*Affiliated to The Fédération Aéronautique Internationale through the Royal Aero Club of the United Kingdom.

membership and valid Sporting Licence (as per (b) below).

British Championship non-Senior Category Teams – Valid British Skydiving membership (Full or Temporary)

Open Class (guest) Competitors – A valid British Skydiving Membership (Full or Temporary).

NOTE: There is no Open Competition in the non-senior Categories.

- b) Sporting Licences are not required for entry into the senior categories of the British National Championships. However, competitors who do not wish to obtain or are not eligible for a valid UK Sporting Licence may only enter the competition as an “Guest” team and will not be eligible to receive medals other than as per rule 19 below. Any competitor who feels they or their team may achieve a world record which they wish to have recognised, during the Nationals (or at any other time), must have (a) current Sporting Licence(s) prior to achieving that record. Also, any competitor wishing to be eligible to represent the UK at an FCE must be eligible for a current UK Sporting Licence (eligibility criteria can be found on the British Skydiving Form 110). Competitors may obtain a new Licence or renewal at any time. Applications for a Sporting Licence or renewal must be made using the British Skydiving Form 110 directly to the British Skydiving office. A fee applies. Sporting Licences or renewals will no longer be issued at British Skydiving PTOs. Sporting licences should be applied for at least one month before the deadline for which they are required, as British Skydiving will require supporting documentation for those competitors not holding a UK passport. The Sporting Licence holder must be included on the FAI database by British Skydiving, at least one month prior to an FCE when representing the UK.
- c) A current Medical Certificate/Declaration
- d) The competitors Current and up to date Parachutists Log Book.
- e) British Skydiving National Parachutists Licence with an FS1 sticker and Chief Instructor approval for formations of more than 3 people. Eg. a logbook endorsement.

8. ELIGIBILITY

To participate in the British Nationals, British Skydiving has decided to comply with the FAI rules regarding eligibility.

Please refer to the FAI Sporting Code – General Section, which can be found on the documents page of the FAI website: <https://www.fai.org/isc-documents>

Only Senior Category eligible competitors can become British Champions and/or be considered for funding by British Skydiving. There are no restrictions on the nationality of guest competitors in the “Open” Championships.

9. EVENT ELIGIBILITY

Eligibility for these events is covered in Appendix 1.

10. **EQUIPMENT**

Each individual is responsible for supplying his or her own equipment, which should consist of:

- a) A serviceable main and reserve parachute, container and harness.
- b) The use of an electronic Automatic Activation Device (AAD) hook knife, visual altimeter and Audible Altimeters are all mandatory.
- c) A record of inspection (if packed in the UK) and a valid and in-date reserve packing data card.
- d) Suitable clothing and footwear.

N.B. All equipment and documents must comply with the requirements of the British Skydiving Operations Manual.

11. **COMPETITION AIRCRAFT**

At time of writing the competition aircraft are expected to be:

2 aircraft from Dornier G92 twin turbine and Cessna Caravan single turbine

Each numbered round will be performed from one specific aircraft type.

Teams will perform the rounds in whichever order facilitates the most economic use of the time available in order to complete the competition within the allotted time. Scores may therefore be posted out of numerical sequence.

12. **COMPETITION OFFICIALS**

The competitors will be notified of the attending officials during the Competition Briefing.

13. **TROPHIES**

All competitors who won trophies last year are asked to return them to the British Skydiving Office if they will not be attending the Nationals 2023

14. **CATERING FACILITIES**

Full catering facilities will be available serving both hot and cold food except on Thursday evening where snacks and drinks will be available.

15. **DRUG TESTING**

British Skydiving fully supports Drug-Free Sport and is committed to preventing drug misuse in sport parachuting. Drug misuse is cheating and it may prejudice your safety and the safety of others. There is no place for the misuse of drugs in our sport. British Skydiving's Anti-Doping Policy and Rules are set out in **British Skydiving Form 220** which is downloadable from the British Skydiving website and available on request from the British Skydiving Office.

ANY COMPETITOR may be required to take a random drugs test. Refusal to provide a urine sample for analysis will result in disqualification. Many medications that you may need to take for common medical conditions, such as asthma or hay fever, may contain Prohibited Substances. It is vital that you do not accidentally take a prohibited substance, the consequences are the same as if you were doping. Getting it from a doctor on prescription is no defence!

For further information, please see the anti-doping page of the British Skydiving

Patron: His Royal Highness The Prince of Wales

<https://britishskydiving.org/competitions/drug-free-sport/> which has links to the FAI and World Anti-Doping Agency (WADA) websites, where you can find up-to-date information about the prohibited list of substances and therapeutic use exemptions (see below).

Each competitor is STRICTLY LIABLE- this means that it is your own personal responsibility as a competitor to ensure you comply fully with this policy. A positive test result means disqualification for the whole team, a loss of any sponsorship, and a ban for the individual. British Skydiving Form 220 sets out the procedure to be followed in the event of a positive test. The test is concerned with whether a prohibited substance is present in the body, not how or why it got there.

The Therapeutic Use Exemption (TUE) application process gives competitors a means of attaining approval to use a prescribed Prohibited Substance or Method for the treatment of a legitimate medical condition. This process is in place to protect the rights of competitors to compete on a level playing field.

Any competitor with a TUE must attach a copy to the competition entry form and must also file a copy with the British Skydiving Office before he or she competes. TUE forms may be downloaded from the anti-doping section of the FAI website: <https://www.fai.org/anti-doping>

16. AIR TO AIR VIDEO

Teams are requested to inform Skydive Hibaldstow whether they will be competing with their own videographer or require one from the "pool". Teams will not have a choice of pool videographers – it is possible that a different videographer may be allocated for each round.

NB 1: It is recommended that each team bring their own videographer.

NB 2: Will all teams note – if videographers are jumping on more than one team then, the Meet Director and the DZ manifest reserve the right to alter the order of jumping if required to benefit the running of the competition. Any videographers filming more than 1 team must have 2 kits.

NB 3: ALL videographers must have single point release on their helmet and the CI at the DZ must approve the helmet for use in the competition.

NB 4: Videographers must ensure their camera set up is compatible with the scoring system as specified in Appendix 1, Section 4.

NB 5: The Hosting DZ will put procedures in place to ensure that the videographers offered as "pool camera" have adequate 4-way camera experience, such that their performance will not unduly affect the team's score. Should the performance of any pool camera be deemed inadequate (agreed by meet director and CJ), the Host DZ can be asked to offer a re-jump to the team(s) affected.

17. CONDITIONS APPLIED TO FACILITATE NATIONAL CHAMPION RESULT

The following will be applied during the FS Championships, should remaining time have the potential to be limiting (due to weather/aircraft serviceability etc). After the 6th round is complete, the teams in senior categories in medal contention will continue to jump the remaining four rounds as a priority over Rookie /Intermediate (8-Way)/ Rookie (4-Way)/ A (4-Way)/ AA (4-Way). The FS 4-Way National Championships will be run in order to achieve completion of as many rounds as possible in the senior categories, up to ten rounds in order for National Champions to be declared and for sponsorship criteria to be met.

The FS 4-Way National Championships will be called with results based upon the completed rounds.

18. MEET DIRECTOR TERMS OF REFERENCE

The Meet Director is responsible as follows:

- Ensure liaison with the Drop Zone for the administrative co-ordination of the event schedule
- Ensure a visible point of contact amongst the competitors is maintained at least for 25% of the event time to allow the opportunity for feedback and clear access to officials.
- To have the casting vote on any matters identified by the Chief Judge.

19. PRIZE GIVING

Prize giving will begin as soon as the host Drop Zone can arrange after the event has been completed and once any dignitaries who will be involved in the presentation are available.

In the Open event, only a gold medal may be awarded. The Open gold medal will, however, be awarded only if the winner is ineligible for the British Nationals (i.e. "guest team") AND has won the event in its entirety.

20. LICENCE TO USE IMAGES

In entering this competition, competitors agree to grant British Skydiving a royalty-free non-exclusive licence to use any video or other images submitted to the competition for training and judging purposes.

21. ABORTED JUMPS

The following rules are adapted from the FAI Sporting Code Section 5:

a) Jump Run

i) If a competitor or team does not jump on their first assigned jump run, they may make no more than one additional jump run, unless authorised by the pilot to do so or where it is apparent that the competitor or team is exhibiting good safety practice or common sense in making additional passes.

ii) The competitor or team may choose to abort a jump for any pertinent reason and may descend with the aircraft. While the length of time elapsed since take-off of the aircraft is not considered a pertinent reason to abort a jump, if the aircraft spends more than fifteen (15) minutes above 3000 m (10,000 ft) msl or ten (10) minutes above 3650 m (12,000 ft) msl and there is no supplementary oxygen provided, that will constitute a pertinent reason. If a jump run is aborted and the meet director decides that the reason is pertinent, the jump must then be made at the earliest opportunity.

iii) If a competitor or team fails to follow the provisions of paragraph ii)

above or aborts a jump without a pertinent reason (as determined by the Meet Director) they will receive a score of zero for the jump.

b) Meteorological Conditions

(i) Jumping will continue as long as there is, in the opinion of the Meet Director and the Chief Judge, satisfactory weather conditions for both jumping and judging purposes. (For UK Nationals as per the British Skydiving Ops Manual)

(ii) No further exits will be made following the interruption of an event by reason of weather conditions until the conditions are again satisfactory. The performance of jumpers or teams that have already exited the aircraft will, if possible, be evaluated.

To clarify the implications of the above rules:

Should the Meet Director and Chief Judge decide that the weather conditions are suitable for jumping and judging, teams will be expected to board the aircraft for that round as manifested. Any team that chooses not to board the aircraft for their round will automatically score zero for that round.

The Meet Director and Chief Judge will do their utmost to ensure that competitors are only asked to board the aircraft when meteorological conditions are suitable. However, the drop zone reserves the right to charge competitors the full price for any further lifts required to complete the round, even if the meet director decides that the reason for non-exit was "pertinent".

Chapter 1: General

- 1.1. The competition will be conducted in accordance with the FAI, according to the regulations of the Sporting Code of the FAI, General Section, and Section 5 as approved by the ISC and validated by the FAI, and these rules. All participants accept these rules and the FAI regulations as binding by registering in the competition. No departure from these rules is permitted.
- 1.2. Changes are approved by the Elite Performance Committee and ratified by the Council of British Skydiving. Where an unforeseen change is felt necessary to ensure the smooth running of the competition a meeting will be held between Chief Judge, Meet Director and competitors (team captains).
- 1.3. There is no maximum number of scored jumps per day. This includes re-jumps & Tie Breaks.

Chapter 2: Definitions of Words and Phrases Used in these Rules

- 2.1. Formation: consists of competitors linked by grips.
- 2.2. Grip: consists of a handhold on an arm leg or foot of another jumper as shown in 7.2. As a minimum, a grip requires stationary contact.
- 2.3. N/A
- 2.3.1 N/A
- 2.4. Body: consists of the entire competitor and their equipment.
- 2.5. Dive Pool: consists of the Random Formations and Block Sequences depicted in the addenda to these rules.
- 2.6. Subgroup: is the individual jumper, or linked jumpers, required to complete a designated manoeuvre during the inter of a block sequence.
- 2.7. A subgroup's centerpoint: is one of the following:
 - a. The defined grip or the geometric centre of the defined grips within a subgroup of linked jumpers.
 - b. The geometric centre of an individual's torso.
- 2.8. Total Separation: is when all competitors show at one point in time they have released all their grips and no part of their arms have contact with another body.
- 2.9. Inter: is an intermediate requirement within a block sequence which must be performed as depicted in the dive pools.
- 2.10. Sequence: is a series of random formations and block sequences which are designated to be performed on a jump.
- 2.11. Scoring formation: is a formation which is correctly completed and clearly presented either as a random formation or within a block sequence as depicted in the dive pool, and which, apart from the first formation after exit, must be preceded by a correctly completed and clearly presented total separation or inter, as appropriate.
- 2.12. Infringement: is one of the following:

Patron: His Royal Highness The Prince of Wales

*Affiliated to The Fédération Aéronautique Internationale through the Royal Aero Club of the United Kingdom.
British Skydiving is the trading name of British Parachute Association Ltd. A company limited by guarantee.
Registered in England & Wales no 875429. Registered office: 5 Wharf Way, Glen Parva, Leicester LE2 9TF.*

- An incorrect or incomplete formation which is followed within working time by either
 - a total separation or,
 - an inter, whether correct or not.
- A correctly completed formation preceded by an incorrect inter or incorrect total separation.
- A formation, inter, or total separation not clearly presented.

2.13. Omission: is one of the following:

- A formation or inter missing from the drawn sequence.
- No clear intent to build the correct formation or inter is seen and another formation or inter is presented and there is an advantage to the team resulting from the substitution.

2.14. Working Time: is the period of time during which teams are scored on a jump which starts the first moment any competitor (other than the Videographer) separates from the aircraft, as determined by the Judges, and terminates a number of seconds later as specified in 3.1.

2.15. NV: Formations, inters, or total separations not visible on screen due to meteorological conditions, or other factors relating to the videography of the jump that cannot be controlled. (See 4.8.4). The final decision will rest with the Meet Director and Chief Judge.

2.16. Judgement Call: An assessment by the judges of a formation, infringement or omission that is not unanimous.

2.17. N/A

2.18. N/A

3. The Events

3.1. The discipline will be comprised of the following events:

The National Skydiving Formation Skydiving Championships for 4-way is comprised of:

- | | | |
|---------------------------------------|---|-----------|
| a. Senior 4-Way Sequential (AAA/Open) | - | 10 Rounds |
| b. AA 4-Way Sequential | - | 8 Rounds |
| c. A 4-Way Sequential | - | 8 Rounds |
| d. Rookie 4-Way Sequential | - | 8 Rounds |

3.1.1 4-Way FS Events: Exit altitude is 3 200 meters / 10 500 feet AGL. Working Time is 35 seconds.

Patron: His Royal Highness The Prince of Wales

*Affiliated to The Fédération Aéronautique Internationale through the Royal Aero Club of the United Kingdom.

Registered in England & Wales no 875429. Registered office: 5 Wharf Way, Glen Parva, Leicester LE2 9TF.*

3.1.2 N/A

3.1.3 For meteorological reasons only, and with the consent of the Meet Director and the Chief Judge, may change the exit altitude and/or working time and continue the competition. In this case the following conditions will apply:

3.1.3.1 The working time will be

- 20 or 35 seconds for the 4-Way FS

The reduced working time must be used if the exit altitude is lowered (ref 3.1.1). The next round must commence if the working time is changed.

3.1.3.2 The minimum exit altitude will be

- 2450 meters / 8000 feet AGL for the 4-Way FS events

3.2. Objective of the Events

3.2.1 The objective of the event is for the team to complete as many scoring formations as possible within the working time, while correctly following the sequence for the round.

3.2.2 The accumulated total of all rounds completed is used to determine the placing of teams. Only one completed round is required to declare champions.

3.2.2.1 If two or more teams have equal scores the following order of procedures will be applied to determine the final placings:

- i. one tie break round, if possible (for the first three placings only). The tie -break round will be the next drawn round of the competition,
- ii. the highest score in any completed round,
- iii. the highest score starting with the last completed round and continuing in reverse order, round by round until the tie is broken,
- iv. the fastest time (measured to hundredths of a second) to the last formation scored without infringement by both teams in the last completed round. Starting time must be that used for original evaluation of the jump.

3.3 Performance Requirements

3.3.1 Each round consists of a sequence of formations depicted in the dive pools of the appropriate addendum, as determined by the draw.

3.3.2 It is the responsibility of the team to clearly present the start of working time, correct scoring formations, inters and total separations to the judges.

3.3.3 Scoring formations need not be perfectly symmetrical, but they must be performed in a controlled manner. Mirror images of random formations and whole block sequences are permitted.

3.3.4 In sequences, total separation is required between block sequences, between random formations, and between block sequences and random formations.

3.3.5 Where degrees are shown, (180°, 270°, 360°, 540°), this indicates the approximate degrees and direction of turn required to complete the inter as intended. The degrees shown are approximately that amount of the circumference of the subgroup's

centerpoint to be presented to the centerpoint(s) of the other subgroup(s). For judging purposes, the approximate degrees and direction of turn of subgroups centerpoints will be assessed using only the two dimensional video evidence as presented. Degrees of turn performed must be in a single direction.

3.3.6 Contact is allowed between different subgroups during the inter of a block sequence.

3.3.7 Where subgroups are shown, they must remain intact as a subgroup with only the depicted grips on other jumpers in that subgroup.

3.3.8 Assisting handholds on other bodies in a scoring formation are not permitted.

3.3.9 Handholds by the jumper on their own body within a subgroup or a scoring formation are permitted.

3.3.10 N/A

4. General Rules

4.1 Teams may consist of competitors of any gender, except where a team wishes to declare themselves as "female", where (except for the videographer) all competitors must be female (see 6.3.5)

4.2 The Draw

4.2.1 The draw of the sequences will be done publicly and supervised by the Chief Judge. Teams will be given not less than two hours knowledge of the results of the draw before the competition starts.

4.2.2 Event Draw: All the "Blocks" (numerically numbered) and the "Random Formations" (alphabetically marked) applicable (see 6.3) as shown in the appropriate annex will be singularly placed in one container. Individual withdrawal from the container (without replacement) will determine the sequences to be jumped in each round. Each round will be drawn so as to consist of up to the required numbers below.

4.2.3 Use of Dive Pool: Each block or formation will be drawn only once for the scheduled rounds of each competition. In the event that additional rounds are necessary, due to the tie-breaking jump-off, the dive pool for this round will consist of the blocks and formations which were not drawn for the scheduled rounds. In the event that all of the remaining blocks and formations do not complete the tie breaking round, the draw will continue from an entire original dive pool in that event, excluding any blocks or formations which have already been drawn for that round.

4.2.4 Senior 4-way (AAA) Event Draw: The draw will be comprised of 5 or 6 scoring formations per round, whichever number is reached first.

4.2.5 AA 4-way Event Draw: The draw will be comprised of 4 or 5 scoring formations per round, whichever number is reached first.

4.2.6 A 4-way Event Draw: The draw will be comprised of 3 or 4 scoring formations per round, whichever number is reached first.

4.2.7 Rookie 4-way Event Draw: The draw will be comprised of 3 scoring

formations per round.

4.3. Competitors are not allowed to use a wind tunnel (freefall simulator) after the draw has been made.

4.4. N/A

4.5. Video Transmission and Recording

4.5.1. Each team shall provide the video evidence required to judge each round. Each freefall Videographer must use the video transmission system if provided by the Organiser.

4.5.2. For the purpose of these rules, "freefall video equipment" shall consist of the complete video system(s) used to record the video evidence of the team's freefall performance, including the camera(s), recording media, and battery(ies). All video equipment must deliver a High Definition 1080 type digital signal with a minimum frame rate of 25 frames per second, through a memory card (minimum class 10). The videographer is responsible for ensuring the compatibility of the freefall video equipment with the scoring system.

4.5.3. As soon as possible after each jump is completed, the freefall videographer must deliver the freefall video equipment (including the media used to record that jump) for dubbing at the designated dubbing station. The video evidence must remain available for viewing or download until all scores are posted as final.

4.5.4. Only one video recording will be dubbed and judged. Secondary video recordings may only be used in NV situations.

4.5.5. The dubbing station will be as close to the landing area as possible.

4.5.6. N/A

4.5.7. N/a

4.5.8. If the Video Review Panel determines that the freefall video equipment has been deliberately tampered with, the team will receive no points for all competition rounds involved with this tampering.

4.5.9 N/A

4.6. Exit Procedure

4.6.1. There are no limitations on the exit other than those imposed by the Chief Pilot for safety reasons.

4.6.2. The exit will be controlled by radio and commands relayed to the team in the aircraft by the pilot or crew. Exit commands will be made using an appropriate signal system.

4.7. Scoring

4.7.1. A team will score one point for each scoring formation performed in the sequence within the allotted Working Time of each round. Teams may continue scoring by continually repeating the sequence.

4.7.2. For each omission three points will be deducted. If both the inter and the second formation in a block sequence are omitted, this will be considered as only one omission.

4.7.3. If an infringement in the scoring formation of a block sequence is carried into the inter (ref. 2.9.), this will be considered as one infringement only, provided that the intent of the inter requirements for the next formation is clearly presented and no other infringement occurs in the inter.

4.7.4. The minimum score for any round is zero points.

4.8. Rejumps

4.8.1. In a NV situation, the video evidence will be considered insufficient for judging purposes, and the Video Review Panel will assess the conditions and circumstances surrounding that occurrence. In this case a rejump will be given unless the Video Review Panel determines that there has been an intentional abuse of the rules by the team, in which case no rejump will be granted and the team's score for that jump will be zero.

4.8.2. Contact or other means of interference between competitors in a team and/or their Videographer shall not be grounds for the team to request a rejump.

4.8.3. Adverse weather conditions during a jump are no grounds for protest. However, a rejump may be granted due to adverse weather conditions, at the discretion of the Chief Judge.

4.8.4. Problems with a competitor's equipment (including freefall video equipment) shall not be grounds for the team to request a rejump.

4.9. N/A

5. Judging

5.1. The competition jumps will be judged as the Videographer provides the video evidence.

5.2. The judging will, as far as practical circumstances allow (landings out, rejumps etc), be judged in the reverse order of placing for the semi-final and final in the senior categories and final only in other categories.

5.3. Three Judges must evaluate each team's performance.

5.4. The Judges will watch the video evidence of each jump (1) one time at normal speed to determine points in time. The moment of freeze frame at the end of working time will be determined at the first viewing. If a judgement call occurs, a second viewing of the jump will be conducted at normal or reduced speed between 50-90 percent of normal speed. At the request of the Event Judge a (3rd) third view of part(s) of the jump can be conducted at normal or reduced speed. The speed of the second- and third viewings (normal or reduced) will be determined by the Event Judge. The Chief Judge will decide prior to the start of each round, the percentage of reduced speed to be used for that round for each category. Each category (i.e. Rookie, A, AA, AAA) may have a different speed. The freeze frame from the first viewing will be applied on each viewing.

5.4.1. If, after the viewings are completed, and within fifteen seconds of the knowledge of the result, the Chief Judge, Event Judge or any Judge on the panel considers that an absolutely incorrect assessment has occurred, the Chief Judge or Event Judge will

direct that only that part(s) of the jump in question be reviewed at reduced speed in accordance with 5.4. If the review results in a minimum two to one judge decision by the Judges on the part(s) of the performance in question, the score for the jump will be adjusted accordingly. Only one review is permitted for each jump.

5.5. The Judges will use the electronic scoring system to record their evaluation of the performance. The Judges may correct their evaluation record after the jump has been judged. Corrections to the evaluation record can only be made before the Chief Judge signs the score sheet. All individual judge's evaluations will be published.

5.6. A majority of Judges must agree in the evaluation in order to;

- credit the scoring formation, or
- assign an infringement, or
- assign an omission, or
- determine an NV situation.

5.7. The chronometer will be operated by the Judges or by a person(s) appointed by the Chief Judge, and will be started as determined in 2.14. If Judges cannot determine the start of the working time, the following procedure will be followed. Working time will start as the videographer separates from the aircraft and a penalty equal to 20% (rounded down) of the score for that jump will be deducted from the score for that jump.
